

CLOZE TEST SORULARI

1.- 5. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

The term soil generally refers to the loose surface of the Earth, as (1) ---- from solid rock. To the farmer, soil is the natural medium for growth of all land plants; civil engineers consider soil a/an (2) ---- disaggregated earth material that supports (3) ---- constructed works and (4) ---- which embankments and other earth structures (5) ---- .

1.

- A) devaluated
- B) interrupted
- C) distinguished
- D) transported
- E) alternated

2.

- A) steadily
- B) evenly
- C) slowly
- D) easily
- E) chiefly

3.

- A) little
- B) most
- C) a lot
- D) even
- E) rather

4.

- A) against
- B) by
- C) from
- D) for
- E) out

5.

- A) were to build
- B) were building
- C) have built
- D) had been built
- E) are built

6.-10. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

Brass, an alloy of copper and zinc, is a/an (6) ----metal that (7) ---- to make fireplace and irons, candlesticks, and other useful objects. (8) ---- have become (9) ---- sought-after antiques. Copper, like brass, is a soft metal that is easy to form and has good colour. It is also an efficient conductor of heat, so it was often used to fashion cooking pots. The insides of the pots were coated with tin (10) ---- food would not come into contact with the copper.

6.

- A) hectic
- B) permanent
- C) zealous
- D) attractive
- E) enthusiastic

7.

- A) to have used
- B) had used
- C) would use
- D) having used
- E) was used

8.

- A) Too
- B) Much
- C) Many
- D) A few of
- E) Plenty of

9.

- A) lovely
- B) swiftly
- C) highly
- D) hastily
- E) finely

10.

- A) so that
- B) in case
- C) unless
- D) otherwise
- E) therefore

11.- 15. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

(11) ---- ceramics can hold liquid and resist extreme temperatures, they make excellent dinnerware. Porcelain, (12) ---- is very hard and translucent, is the finest dinnerware. It is often called *china*, after the country that first (13) ---- it. Stoneware is another popular kind of dinnerware. It is strong and very (14) ---- to heat and cold. And because clay can be shaped (15) ---- many forms, ceramics are often used in figurines and decorative objects.

11.

- A) As a result of
- B) Due to
- C) No matter
- D) Hence
- E) Because

12.

- A) when
- B) what
- C) which
- D) where
- E) that

13.

- A) produced
- B) producing
- C) to produce
- D) having produced
- E) was produced

14.

- A) deterrent
- B) reluctant
- C) hesitant
- D) resistant
- E) ambitious

15.

- A) for
- B) on
- C) into
- D) by
- E) through

16.- 20. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

Tea plants are usually grown from seeds or cuttings taken from other tea plants. The tea seedlings, or young plants, (16) ---- in well-drained, fertile soil and are shaded from the fierce heat of the sun. The plants can grow as tall as 9 meters high. (17) ---- , on tea plantations the plants are (18) ---- cut back to produce low bushes, usually no more than 1 meter high (19) ---- it easier for workers to (20) ---- the leaves.

16.

- A) could be placing
- B) had placed
- C) were placing
- D) would be placed
- E) are placed

17.

- A) Despite
- B) Therefore
- C) By the way
- D) On account of
- E) However

18.

- A) furiously
- B) awfully
- C) constantly
- D) suitably
- E) relatively

19.

- A) to make
- B) to be made
- C) having made
- D) to be making
- E) be made

20.

- A) resolve
- B) pluck
- C) comprehend
- D) follow
- E) scope

21.- 25. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

Oxygen **(21)** ---- about 1772 by a Swedish chemist, Carl Wilhelm Scheele, **(22)** ---- obtained it by heating potassium nitrate, mercury oxide, and **(23)** ---- other substances. An English chemist, Joseph Priestley, **(24)** ---- discovered oxygen in 1774 by the thermal decomposition of mercury oxide and published his findings the same year, three years **(25)** ---- Scheele published. A French chemist, Antoine Lavoisier, first recognized the gas as an element, coined its name, and explained combustion as a union of oxygen with the burning material.

21.

- A) could be discovered
- B) is discovered
- C) would be discovered
- D) was discovered
- E) should have discovered

22.

- A) for whom
- B) whom
- C) whose
- D) that
- E) who

23.

- A) many
- B) some of
- C) little
- D) plenty
- E) almost

24.

- A) sincerely
- B) cunningly
- C) considerably
- D) reverently
- E) independently

25.

- A) ago
- B) when
- C) while
- D) before
- E) since

26.- 30. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

There is 50 times more water buried in the ground than there is in all the streams, rivers, and lakes on the surface of the earth. This groundwater **(26)** ---- in layers of very loose soil, gravel, or rocks. We call these layers aquifers. This is the water we find when we **(27)** ---- wells into the earth. In the United States, about half of all the people get their drinking water from wells. This includes people who have **(28)** ---- wells and **(29)** ---- who live in communities that **(30)** ---- their water from deep in the earth.

26.

- A) is contained
- B) had contained
- C) would be containing
- D) must be contained
- E) will be contained

27.

- A) train
- B) hold
- C) pierce
- D) drill
- E) stab

28.

- A) they
- B) themselves
- C) theirs
- D) them
- E) their own

29.

- A) ones
- B) these
- C) them
- D) those
- E) other

30.

- A) depict
- B) represent
- C) draw
- D) retire
- E) depart

31.- 35. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

A computer virus **(31)** ---- a set of instructions that attaches itself to other computer programs, usually in the computer's operating system, and becomes part of them. In most cases, the corrupted programs continue **(32)** ---- their intended functions but **(33)** ---- execute the virus's instructions **(34)** ---- . A virus is usually designed to execute **(35)** ---- it is loaded into a computer's memory.

31.

- A) participates in
- B) insists on
- C) dwells upon
- D) regards as
- E) consists of

32.

- A) being performed
- B) to be performing
- C) to have performed
- D) to perform
- E) having performed

33.

- A) surreptitiously
- B) clearly
- C) lovely
- D) awfully
- E) legally

34.

- A) as if
- B) besides
- C) either
- D) hardly
- E) as well

35.

- A) when
- B) where
- C) before
- D) until
- E) barely

36.- 40. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

The work of oceanographers is very important. Humans **(36)** ---- the oceans for fish and other food. **(37)** ---- the land has become overcrowded and polluted, the oceans **(38)** ---- more polluted and overfished. Oceanographers try to understand **(39)** ---- controls the size of fish stocks and help governments decide how many fish **(40)** ---- each year.

36.

- A) compose of
- B) depend on
- C) deter from
- D) accuse of
- E) make up

37.

- A) Just as
- B) Whereas
- C) Due to
- D) Even
- E) No matter

38.

- A) may have become
- B) had become
- C) would become
- D) became
- E) have become

39.

- A) whom
- B) which
- C) where
- D) what
- E) whose

40.

- A) will be catching
- B) can be caught
- C) had been caught
- D) has been caught
- E) would have caught

41.- 45. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

Most science fairs require (41) ---- students enter their projects in one of the (42) ---- specific categories. (43) ----, these categories (44) ---- to actual divisions in the fields of science and technology. Projects within each category compete against each other (45) ---- the scrutiny of judges who have expertise in the field.

41.

- A) where
- B) that
- C) in that
- D) which
- E) whether

42.

- A) a large amount
- B) plenty
- C) several
- D) some of
- E) mostly

43.

- A) Extremely
- B) Necessarily
- C) Pointlessly
- D) Unjustly
- E) Typically

44.

- A) distribute
- B) deliver
- C) eradicate
- D) correspond
- E) manifest

45.

- A) over
- B) under
- C) into
- D) from
- E) for

46.- 50. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

At one time, most research scientists worked for universities or government-sponsored research institutions. Today, just as many (46) ---- in private industry, (47) ---- they help produce the newest medicines and develop commercial and industrial products. Scientists also work for world-health and wildlife conservation organizations, (48) ---- they lend their scientific expertise to the (49) ---- of humankind and the natural world on which it (50) ---- .

46.

- A) would be employed
- B) were employed
- C) had employed
- D) are employed
- E) should be employing

47.

- A) where
- B) which
- C) that
- D) at which
- E) on whom

48.

- A) what
- B) that
- C) the fact that
- D) for which
- E) on whose

49.

- A) gratification
- B) adjustment
- C) betterment
- D) disapproval
- E) annoyance

50.

- A) depends
- B) realizes
- C) contends
- D) evokes
- E) alludes

51.- 55. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

In most bat species, females gather together to produce young communally. The extreme example of **(51)** ---- behaviour among the microbats is **(52)** ---- of the Mexican free-tailed bat, *Tadarida brasiliensis*, whose vast congregations in some caves during the 1960s were estimated **(53)** ---- as many as 50 million individuals—the largest known gatherings of any mammal. The bats emerge at sunset in a continuous stream, looking like smoke emerging **(54)** ---- the cave entrance. This stream stretches out to the far horizon, and **(55)** ---- more emerge well into the night. In the morning, returning bats can also create an unforgettable spectacle as they arrive high and suddenly plunge down at breakneck speed back into their roost.

51.

- A) like
- B) these
- C) such
- D) just as
- E) as

52.

- A) those
- B) some
- C) that
- D) all
- E) few

53.

- A) to contain
- B) to be containing
- C) contained
- D) containing
- E) had contained

54.

- A) at
- B) from
- C) into
- D) by
- E) with

55.

- A) many
- B) a far
- C) quite
- D) less
- E) others

56.- 60. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

Air and water are two important natural resources—people need air and water to live. Land is a natural resource **(56)** ---- people can use it to grow crops for food. Stone is a natural resource. It was **(57)** ---- useful for making tools that the first known period of human culture **(58)** ---- the Stone Age. Stone, **(59)** ---- sand and gravel, continues to be very useful—not for making tools but for construction of buildings and roads and for **(60)** --- purposes.

56.

- A) what if
- B) unless
- C) if
- D) in case
- E) just because

57.

- A) already
- B) how much
- C) as if
- D) only when
- E) so

58.

- A) called
- B) was called
- C) to be called
- D) would have called
- E) used to call

59.

- A) without
- B) along with
- C) additionally
- D) as long as
- E) so far

60.

- A) a few others
- B) another
- C) many other
- D) one another
- E) every other

61.- 65. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

(61) ---- the many beautiful birds are the peacock, the quetzal, and the birds of paradise. They are dressed in feathers of (62) ---- colours. The peacock wears a long train of feathers (63) ---- grow on his back just above the tail. With the tail he can lift the train and spread it out to an enormous fan. The quetzal's golden-green train is (64) ---- three feet long. One of the birds of paradise has long tufts of feathers beneath its wings. When it raises its wings, the feathers fall over its body in a crimson shower. (65) ---- creatures live in jungle forests.

61.

- A) Among
- B) Almost
- C) From
- D) Above
- E) Outside

62.

- A) miserly
- B) outrageous
- C) skillful
- D) splendid
- E) amazed

63.

- A) whose
- B) that
- C) in which
- D) of which
- E) whatever

64.

- A) less and less
- B) so many
- C) as much as
- D) more than
- E) at the latest

65.

- A) Like
- B) Just as
- C) Such as
- D) The fact that
- E) These

66.- 70. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

There is no doubt that carbon dioxide— (66) ---- several other gases (67) ---- methane and the man-made CFCs—enhances the atmosphere's greenhouse effect. Because its level (68) ---- ever since people (69) ---- burning wood, coal and other natural resources in industrial quantities, the amount of heat being trapped by it must be increasing. This greenhouse effect is not controversial. Neither is it synonymous with global warming. Evidence from the ice ages shows that the carbon-dioxide greenhouse has always played a crucial role in shaping the climate, but only as one part of a symphony of effects which few people (70) ---- attention to.

66.

- A) however
- B) even so
- C) by contrast
- D) in addition
- E) as well as

67.

- A) to have included
- B) included
- C) being included
- D) including
- E) to have included

68.

- A) has been rising
- B) should be rising
- C) will rise
- D) have risen
- E) must be rising

69.

- A) brought out
- B) cut across
- C) took to
- D) came across
- E) gave up

70.

- A) omit
- B) give
- C) bring
- D) pay
- E) make

71.- 75. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

Camels were domesticated (71) ---- 3,000 years ago, and to this day, humans depend on them for transport across arid environments. They can easily carry an extra 90 kilograms (72) ---- walking 32 kilometres a day in the harsh desert. They can travel (73) ---- horses but can also endure (74) ---- periods of time without food or water. Humans have used camels for their wool, milk, meat, leather, and even dung (75) ---- can be used for fuel.

71.

- A) as many as
- B) much as
- C) so much as
- D) about which
- E) alike

72.

- A) unless
- B) during
- C) once
- D) while
- E) as if

73.

- A) the fastest
- B) as fast as
- C) much faster
- D) the faster
- E) too fast

74.

- A) legitimate
- B) fabulous
- C) amazed
- D) potential
- E) incredible

75.

- A) what
- B) that
- C) how
- D) some
- E) all

76.- 80. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

The savana, which means "treeless plain", is home to large herds of grazing animals and the predators that follow (76) ---- . It is a carefully balanced ecosystem that can easily be disturbed by changes in climate, an imbalance in the number and type of animal (77) ---- , and human influences (78) ---- farming and cattle herding. Fire also has an important role (79) ---- the savanna, burning out old grass growth and new tree saplings, (80) ---- the new grasses that herbivores like gazelles depend upon.

76.

- A) their
- B) themselves
- C) theirs
- D) their own
- E) them

77.

- A) species
- B) specimens
- C) samples
- D) spices
- E) spaces

78.

- A) more than
- B) just as
- C) such as
- D) so much
- E) likewise

79.

- A) of
- B) in
- C) about
- D) from
- E) below

80.

- A) making way for
- B) taking up with
- C) growing out of
- D) going in for
- E) keeping trace of

81.- 85. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

Acid rain forms (81) ---- certain pollutants, (82) ---- sulfur oxides and nitrogen oxides, mix with tiny droplets of water vapor in the atmosphere. Power plants are the (82) ---- source of pollutants (84) ---- acid rain. Smoke from factories, exhaust fumes from automobiles and trucks, and even gases (85) ---- by chemical fertilizers also put pollutants into the air.

81.

- A) on condition
- B) as soon as
- C) if only
- D) when
- E) even though

82.

- A) whatever
- B) so many
- C) like
- D) as if
- E) however

83.

- A) prior
- B) main
- C) casual
- D) abstract
- E) internal

84.

- A) being caused
- B) having caused
- C) to be causing
- D) caused
- E) causing

85.

- A) picked up
- B) given off
- C) checked in
- D) broken out
- E) relied on

86.- 90. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

The atom is (86) ---- of three types of particles: the proton, the neutron, and the electron. The protons and the neutrons are heavy particles (87) --- are located (88) --- the very center of the atom. They (89) ---- the atomic nucleus. The electrons are very light particles. They are spread (90) ---- the outer regions of the atom and orbit the nucleus.

86.

- A) put out
- B) made up
- C) figured out
- D) brought up
- E) built up

87.

- A) whose
- B) of which
- C) from whom
- D) that
- E) for which

88.

- A) at
- B) on
- C) from
- D) under
- E) over

89.

- A) induce
- B) form
- C) enforce
- D) wonder
- E) share

90.

- A) as well as
- B) along with
- C) throughout
- D) rather than
- E) as such

91.- 95. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

The best place (91) ---- to swim is in a pool, (92) ---- supervision and coaching are easiest. The first thing a beginner (93) ---- is how to float and tread water. Floating allows a swimmer to stay on top of the water with (94) ---- effort, and it is necessary when swimming long distances. Treading water is something (95) ---- walking in deep water.

91.

- A) learned
- B) learning
- C) having learned
- D) to be learning
- E) to learn

92.

- A) on which
- B) where
- C) when
- D) for which
- E) from which

93.

- A) may have learned
- B) had learned
- C) would be learned
- D) should learn
- E) could be learning

94.

- A) all of them
- B) a good many
- C) little or no
- D) a couple of
- E) large amounts of

95.

- A) like
- B) the same
- C) similar to
- D) as such
- E) much more

96.- 10. sorularda, aşağıdaki parçada numaralanmış yerlere uygun düşen sözcük ya da ifadeyi bulunuz.

All narcotics are (96) ---- in their effects on the body. They act on nearly all the body systems, but their strongest and most noticeable effects are (97) ---- the nervous system. Narcotics reduce the activity of the central nervous system, (98) ---- is made up of the brain and spinal cord. The result is that (99) ---- behavior is reduced, irritability and anxiety are lessened, and drowsiness and sleep take place. (100) ---- low doses of narcotics may cause a person to slip in and out of awareness.

96.

- A) such as
- B) like
- C) alike
- D) both
- E) as if

97.

- A) by
- B) from
- C) into
- D) on
